Helping work DX Before the Internet

- Before Al Gore blessed us with the internet ☺ we used 2M to put out DX alerts
- Then, in 1977, Chaz W4GKF wrote a program for the IBM System/34 to produce “Wanted” listings..

January 2001

Next meeting: January 16th, 7:30 PM at Radioshack.com just outside I-285 on the Buford Highway.

PRESIDENT'S CORNER

Mike Greenway, K4PI

Welcome to the new millennium !!!! W h o knows what changes are in store for the DX community. It should prove interesting. The high bands continue to hold up even under the 27 day dip. They are projecting that we are near the top of the cycle (fact already going down the other side. This cycle was a little bit of a disappointment for me as it never got really high as in some of the more recent cycles.

We are in for a treat on the program fas month. The recent Kingman Reef Expedition ran by some of our club members will be the program. There should be 3 of the expedition members at the meeting.

We plan on eating at the Chinese restaurant that we have used before on Buford Highway, the Yin Jung. Directions will provided in the bulletin and on the web page. Pass the word along to any DXers that might not get the bulletin.

K4VT is our ARRL QSL bureau handler. Any cards you have for him please provide him with the address label off one of your QST's and sort your cards in alphabetical order. These should be QSL's for QSO's from your home station as voted on a couple of meetings ago. We have several good programs lined up to start the year. If anyone has any input let me know from you.

TREASURER'S REPORT

There was no report this month.

SENT TO MIKE, K4PI

Hello Mike:

Bob Allphin gave me your name as the SEDXA contact person for sponsoring DXpeditions. I've been on two trips with Bob (AH1A and CE0Z), and really wish he was going on this one. I always have a great time with Bob, and have learned quite a bit from him about low band operating. Actually, Bob was scheduled to go on this one but opted to go to Kingman Reef instead. He recommended me as a suitable replacement. As you may know, I did a solo trip as WG1XA in 1993, and also was the main CW/lowband op at Kure KC6, and Midway KH6 in 1997.

I am getting in touch with you at the request of the DXpedition leader, Marco, CE6TBN, to see if SEDXA can help with our expenses. As things currently stand, each of the nine members is paying $2500 for the boat plus airplane flight from Valparaiso to Juan Fernandez. On top of that, we each must pay for the flight from home to Santiago. For me personally, that means a total of about $3700 base costs. I will also have to fork out about 300 to 400 dollars in shipping. Actually, as DXpeditions go, this is probably not terribly expensive, but I'm sure you know that things can really add up in a hurry.

Here is the lineup of antennas and equipment that we have procured for the trip:

Rigs: 3 x FT-1000MPs 1 x TS-450S 1 x IC-706 (six meter rig) 1 x TS-60 (six meter backup)

Amps: 1 x Amertron 4cx811A 1 x Alpha 76PA 2 x SB-220s

Antennas: Battle Creek Special 160/80/40 Force-12 80M vertical Force-12 2-el 40M vertical array Force-12 2-el VDA (vertical dipole array) 1 each for

THIS MONTH IS OUR ANNUAL BANQUET. IT WILL BE HELD AT THE USUAL MEETING PLACE BUT IN A DIFFERENT ROOM. CHECK WHEN YOU ARRIVE FOR THE LOCATION. OPEN BAR STARTS AT 6:00 PM AND DINNER WILL BE SERVED AT 7:30 "sharp". COST IS $15.00 FOR SINGLES AND $25.00 FOR COUPLES. PRIME RIB AND ALL THE TRIMMINGS. CALL BROWER, KC4BX, TO LET HIM KNOW YOU ARE COMING. BRING A CHECK TO COVER THE BANQUET AND 1987 DUES (if not already paid).

SPEAKER FOR THIS YEARS BANQUET WILL BE:

RICK RODERICK --- KC5LJF

Rick is flying in for the Banquet from his home in Alaska where he has one of the finest stations and "antenna farms" in the country.

Among his many accomplishments are:

* He is on the Honor Roll in:
  1. Phone
  2. CW
  3. Mixed
* He has worked over 200 countries on 160 meters and 39 Zones!
* He holds the all-time high CW score for North America in the CQ WW DX contest.
* He holds certificate #25 for 5-Band WAZ.
* His program should be of universal interest to all hams! Spouses should enjoy it too.....

Carol Shrader, W4K, is returning for the banquet and this is also to be a going away party to honor Carol for all the fine work she has done for the club and all it's members. Lets all turn out to tell her how much she will be missed in the Atlanta area. Although she will be a member from afar it won't be the same as having her here.

SEDXC 50th Anniversary Banquet Holiday Dinner
December 7th
RSVP to mallphin@aol.com

From the President…

Sorry I missed the October meeting as Mary and I were out of town.
I heard the program was absolutely outstanding….our VP, Bob W2WG continues to line up some terrific programs each month. Thanks from all of us.
Things are busy around the Allphin household. I am waist deep in planning the first real DXpedition to Desecheo (KP5) in about 15 years and working hard to make sure the 50th Anniversary Banquet/Holiday Party is a wonderful, memorable event.
Today, I finalized the details with The Paper Mill Grill and tried to negotiate a little better price. It was quickly pointed out to me that a recent event there had paid $9.00 more for the same dinner options we have.
The wonderful menu is included elsewhere in this newsletter. There is still time to RSVP to me directly at mallphin@aol.com and send your check to Mike Weathers, ND4V our treasurer. As of this writing we have 74 confirmed and have room for about 20 more.

Please don't miss it!

Lastly I am pleased to announce that the SEDXC has been offered unlimited us of the MATPARC repeater. We have been talking for years about reactivating a repeater for the SEDXC to hang around on. This one is centrally located and should be accessible by most of our local members….give 'er a try on 145.41 CU at the meeting Wednesday the 19th!
73, Bob-K4UEE

Vice President' Report:

Our program this month will be presented by Don Nesbitt, N4HH, with special guest star WF4W, Tad Williamson. The subject will be the transceiver that has captured the hearts, minds, and wallets of many SEDXC members lately, the Elecraft K3. Don will give one of his patented technical presentations, reveal the secret of K3 Mojo, and will extend some of the topics of last month's program as they apply to the K3. You will also see a demonstration of long and short path propagation via ultra-broadband antennas. There are still a few shopping days left until the Holiday party, so there will still be time to get into the Elecraft queue after the presentation, and the K3 will fit into a large stocking. Don't miss the show!

Don will be followed by Dave Johnson in January. Dave will tell you how---and how not---to put up your first tower, and for those who already have one, he will be giving some advanced tower construction techniques. In February Tim Lemmon, WK4U, will present an outstanding program on Linux applications for ham radio. Perhaps he will elaborate on the recent success of running N1MM under Linux using WINE.

The low band DX season appears to be getting underway, as W8JI was meeting them in on 160m this morning, and even I could hear them. Speaking of W8JI, Gary, WB4SQ, set up a visit to Tom's station for Saturday, November 15. We met Tom for lunch at a nearby restaurant at noon, after which we visited his new contest station and antenna farm. We saw an antenna switching network
